Our Legendary Doctors

Dr. Marco Faria-Correa

Medical Director, Plastic & Cosmetic Surgeon MD
(Brazil). Specialist Accreditation & Registration in
Plastic Surgery (Singapore)
35 Years of Experience

Educated in Brazil and accredited in Singapore, Dr. Marco is a certified plastic surgeon since 1984 with decades of experience. He began practicing in Singapore in 1996, sharing his expertise through workshops and surgical demonstrations.

Recognized under Singapore's Hunting for Talents program, he became a registered specialist in 2002 and fully registered in 2005.

Renowned for endoscopic abdominoplasty and breast surgery, he is an award-winning surgeon and international speaker, known for precise, natural-looking results.

Dr. Eduardo Da Silva Nunes

Plastic Surgeon Specialist – Body Contouring
& Breast Surgery
15 Years of Experience

Trained in Brazil, Dr. Eduardo has 15+ years of experience and over 5,000 procedures. He's internationally known for advanced body contouring, including HD Liposuction, UGRaft, MILA, and Rib Remodeling.

He also specializes in breast procedures like Breast Lift and Fast Recovery Augmentation, focusing on natural balance and proportion.

Using technologies such as VASER®, Renuvion®, BodyTite®, and Morpheus8®, he achieves precise, natural-looking results.

Member of the surgical team at WCPS – World Class Plastic Surgeons, Bali.

— HAIR TRANSPLANT —
MOJELIM
SINCE 1997

Our Signature Procedures

1 Male Hair Transplantation

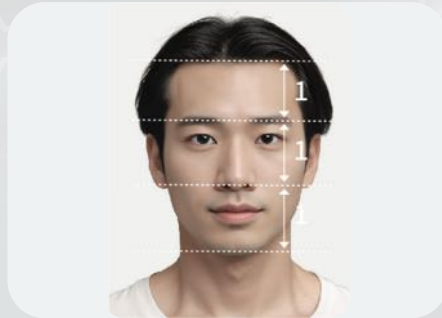

- ① Improve hair health and grow
- ② Adjust and organize irregular hairline
- ③ Availability of more hair styling options

Male Hair Design

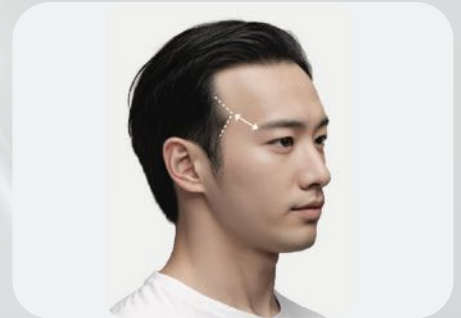

The following factors are taken into account to plan the surgery :
Forehead design, hair loss and style.

Hair Loss Area Cover

Golden Ratio

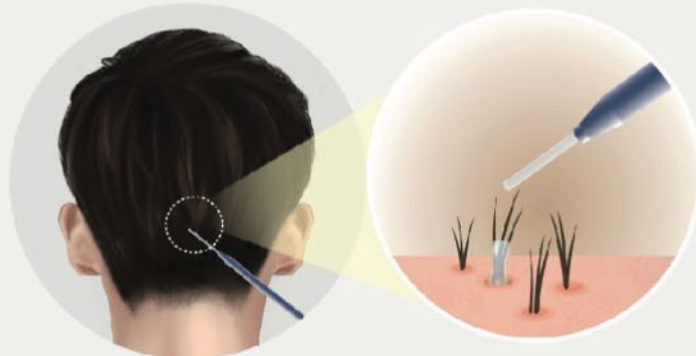

Lateral Sideburns

Non-incision Hair Transplant without Shaving Hair

Non-incision hair transplant without shaving reduces the burden of shaved heads

Maintaining your existing hairstyles, Unit collection method without shaving hairs

Select only healthy hair, and collect a hair follicle unit

Male Surgery Part

Incision Hair Transplant

Non-incision Hair Transplant

Beard / Sideburn Graft

Eyebrow Graft

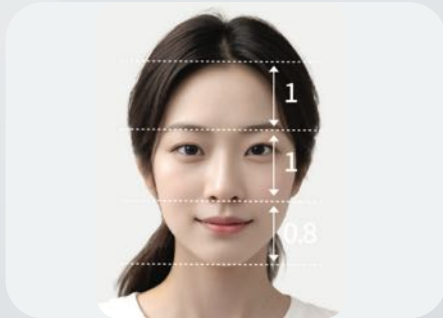

Our Signature Procedures

2 Female Hairline Correction

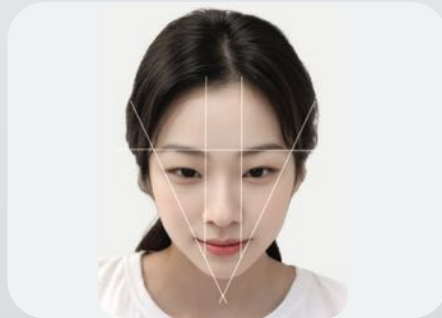

- ① Broad forehead reduction effect
- ② Tidy up irregular hairline
- ③ Improve feminine and soft image

Female Hair Design

Determine the height and shape of the forehead by considering the length and proportion of the entire face.

Golden Ratio

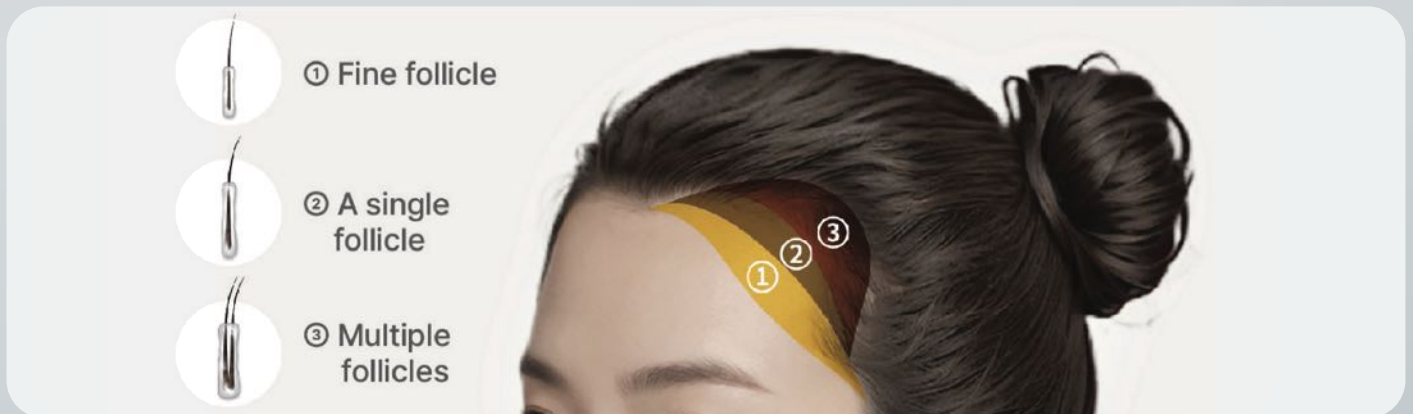

Angle of the Eyes, Nose, Mouth & Forehead

Lateral Ratio & Angle

Natural Hairline Graft

The ideal hairline is structurally implemented by dividing hair follicles by thickness

Female Surgery Part

Non-Incision Hairline Correction

Incision Hairline Correction

Scar Graft

Temporal / Side hairline Graft

Since
1997

28 Years Accumulated Clinical Experience

In operation since 1997, Mojelim specialized hair transplant and hairline correction surgery cannot be copied or imitated elsewhere.

** Cumulative number of Surgeries
122,843 (as of June 2024)*

Specialized Medical Teams

Mojelim has dedicated medical teams that specialize in areas such as: male/female hair incisions, non-incisions and other transplants.

Active Research and Development

Doctors at Mojelim are constantly conducting + researching hair transplantation through regular medical conferences and live medical surgeries.

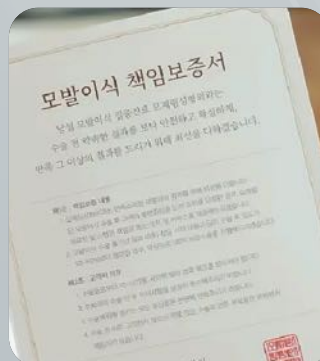

1:1 Personalized Hairline Design

Mojelim is able to create a natural looking end-result due to its emphasis on hairline design. A personalized design is made for each individual's forehead shape and hair condition.

Hair Recovery Survival Kit

To ensure the best results: our medical expertise has built a kit to develop a healthy environment for transplanted hair follicles to increase the rate of engraftment.

Surgery Liability Insurance

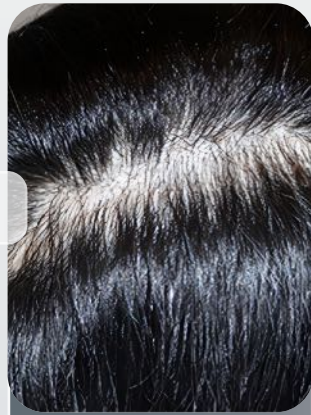

We will perform postoperative care to further improve hair density. Your satisfaction is highly important to us and we will do everything we can to deliver you the best results.

#1 Trusted Clinic
for Vaginal Tightening
in Korea

A New Chapter of Korean-led Women's Clinic Unfolds at The Sanur, Bali

Credentials

All 3 Korean physicians are certified as OB/GYN specialists in Indonesia, ensuring safe care through a legal and official medical system.

Representative

Hestia is the only women's clinic selected among Indonesia's national projects (SEZ), upholding the excellence of Korean medicine.

Wellness

With expertise in Korean-style OB/GYN and cosmetic center operations, experience treatment, recovery, and relaxation all in one place.

Our 3 Lead Directors

Based on Korea's rigorous medical standards and refined surgical expertise, they operate an OB/GYN and cosmetic surgery center in Bali, proving the excellence of K-Medical to the world.

Surgery Procedures

1 Vaginoplasty Surgery

Vaginal laxity affects not just sensation but overall women's health. Hestia goes beyond simple surgery we restore your quality of life.

Hestia Vaginoplasty Ideal Candidates

- ✓ Severe vaginal laxity from multiple childbirth or aging
- ✓ Frequent vaginal gas
- ✓ Desire for more satisfying intimacy
- ✓ Want to reduce recurrence by reinforcing the pelvic floor muscles at the root cause

Before

#Reduced Vaginitis

Recovery
Daily Activities
from Next Day

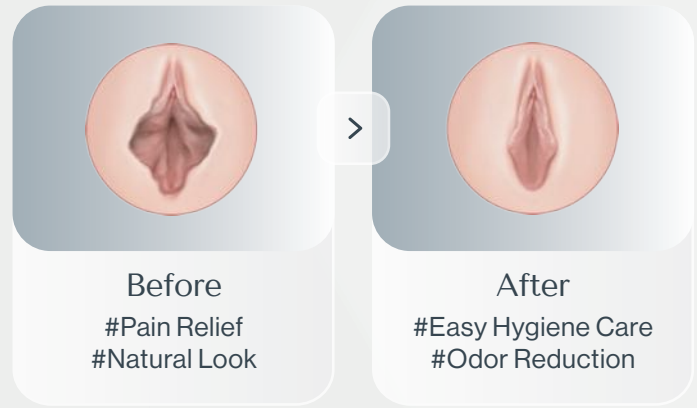

Intimacy
from 2 Weeks
after Surgery

2 Labia Minora Surgery

Labia minora deformity goes beyond cosmetic concerns it can cause pain and chronic vaginitis. Hestia performs 1:1 correction to a shape suited to each individual, restoring both function and confidence.

Hestia Labia Minora Surgery Ideal Candidates

- ✓ Discomfort and pinching when wearing tight clothing
- ✓ Pain during intercourse from labia folding inward
- ✓ Frequent discharge buildup and persistent odor
- ✓ Unsatisfied with changed color and size aesthetically

Before

#Pain Relief
#Natural Look

After

#Easy Hygiene Care

Non-Surgery Procedures

Hestia Lavieen Ideal Candidates

- ✓ Want natural tone-up like BB cream
- ✓ Want effective whitening without tissue damage
- ✓ Want root-cause pigmentation improvement
- ✓ Want low-pain, fast-recovery treatment

1 Vulvar Whitening "Lavieen"

Throughout life, various hormonal changes and friction cause pigmentation in the vulvar area. Once the skin has darkened, it is difficult for it to return to its original state on its own. Lavieen improves the root cause without any tissue damage.

Collagen regeneration effect

Minimizes damage

BB laser effect

Uses 1927nm laser

Things you need to know

Procedure Time
~10 min

Topical Cream
(30 min)

Recovery
Same Day
Activities

Every 4 weeks
3+ Sessions
Recommended

2 Vulvar Whitening "XE'LHA (Y)"

Pigmentation in the Y-zone caused by childbirth, friction, and self-waxing can lower your confidence as a woman. Experience a brighter, clearer skin tone with Sera-Y's low-irritation peeling using whitening ampoules.

No Pain

Quick procedure Time

4th-Gen Peeling

Hestia XE'LHA (Y) Ideal Candidates

- ✔ Lost confidence due to vulvar pigmentation
- ✔ Skin darkened by frequent friction or waxing
- ✔ Want pain-free whitening care
- ✔ Hesitant about whitening due to sensitive skin

Things you need to know

Procedure Time
~5 min

Anesthesia
Not Required

Recovery
Same Day
Activities

Every week
5+ Sessions
Recommended

3 Vaginal Tightening "Vagina Filler"

Thinning vaginal walls and reduced volume lessen tightness. Not just narrowing — Certified fillers in precise doses deliver plump and lasting volume.

No bleeding or incision

Short procedure & recovery

New collagen synthesis

Last 3—5 years with one session

"Long-lasting effects with high graft survival"

Strong Durability

Friction-resistant, high survival rate, not easily absorbed

5-min investment, 5-year effect

#Australia's Leader in Biohacking
& Regenerative Medicine

Our Signature Procedures

Regenerative Medicine & Advanced Biologics

Proprietary therapies including NAD⁺ IV, IV-drips, peptides, exosomes, stem cell therapy, PRP, injectable biologics, and aesthetic/regenerative treatments for skin, rejuvenation, contour, and recovery. Also features IHHT (Intermittent Hypoxic-Hyperoxic Training), an Australia-exclusive, Nobel Prize-based oxygen therapy that activates the body's natural renewal systems.

Biogenix Asia delivers integrated, expert-led stem cell and exosome protocols across longevity, regenerative medicine, and aesthetic optimisation.

Our Signature Procedures

Hormone & Metabolic Therapy

Balance, metabolism, and body composition optimisation

Proprietary Peptide Protocols

Precision programs for vitality, recovery, and longevity

Hyperbaric Oxygen Therapy (HBOT)

Oxygen-based regeneration, performance, and recovery

NAD⁺ Therapy

Cellular energy, mitochondrial optimisation, anti-ageing

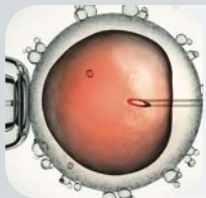

Proprietary IV Drips

Cellular repair, detox, longevity, and performance

Exclusive Memberships

Tailored pathways that unite world-class diagnostics.

Advanced Stem Cell Protocols (Local & IV)

Proprietary autologous allogeneic mesenchymal stem platform

Stem Cell Banking & Expansion

Cryopreservation enables long term personalized therapy access

Exosome Therapy (Local / IV)

Deep tissue repair, rejuvenation, and revitalisation

Regenerative Aesthetic Medicine and state of the art Biologics & Beauty Innovation

Comprehensive approach combining advanced biologics, devices, and protocols for rejuvenation, body contouring, and total aesthetic optimisation. Additionally, we offer the newest generation of biologic and regenerative technologies redefining beauty, health, and longevity. From cutting-edge ultrasound skin lifting Ultraformer

MPT, to the gold standard in radiofrequency Potenza RF Microneedling to regenerative injectables, medical-grade facials, Shockwave acoustic therapy, and Healite II LED Therapy. Each protocol is integrated with the science of longevity—because true beauty begins with cellular health.
